

BTE Theatre School

IN-PERSON INSTRUCTION GUIDELINES:

All rules listed below are to be strictly followed and will be enforced. Please read through them carefully. Safety for our students and instructors is paramount and there is no leniency or exceptions to be made for theatre school participants.

1. Lessons will only be an individual or family in the room with the instructor.

No additional people will be permitted in the room unless a fellow employee pre-approved by the instructor was included for lesson needs. (Someone CANNOT register for a family package with friends. It must be a group of people who live under the same roof who can register with this package.)

2. Double masks per CDC guidelines will be mandatory. NO EXCEPTIONS WILL BE MADE.

3. Only one lesson per day in the room. Followed by immediate clean up by instructor or fellow employee in the room.

4. Classes are only 45 minutes in length.

5. Social distancing will be implemented.

6. Mandatory temperature checks before each lesson.

These will be done outside of the theatre school doors, as best to prevent spread should someone have a fever. Students/families/parents will be in charge of taking their own/their children's temperatures with a sanitized temp reader before entering.

7. Hand sanitizer will be used after the temperature check has been implemented.

Should you have any questions regarding the guidelines, please email aleffler@bte.org
